Pentecom
Experience. Expertise. Excellence.

You Know Your Business.

We Know Technical Publications.

- Guidance and training on the latest S1000D, military specifications and aviation standards.
- Tailored solutions and training to meet your needs.
- Partner with the team forging early adoption strategies for emerging technologies.
- Improve productivity and efficiency.
- Specialized skills for short- or long-term needs.

Problem

When it is time to put your strategy into action, you find you're missing the in-house expertise to handle S1000D-related conversion planning or analysis.

Solution

Don't struggle through difficult projects alone. We're here to guide and support you. The Pentecom team has extensive experience and decades of leadership in S1000D, Air Transport Association (ATA), Aviation Industries Association (AIA), and Military Specifications (MIL-SPEC) standards development.

Consulting

Support through conversion planning and analysis.

Don’t struggle through difficult projects alone.

How Pentecom Can Help

We can resolve your issues as they relate to optimizing, modernizing, and sustaining technical publications.

- Create Business Rules to satisfy project requirements and leverage industry best practices.
- Establish scalable and complex applicability models.
- Manage sustainment relationship between legacy source content and converted S1000D data as it evolves during the conversion process.
- Provide unique solutions for complex Standard Number System (SNS) and technical name challenges.

Ultimately, your team will be prepared for in-house sustainment through management of your S1000D data. Here are our most requested consulting and implementation areas of expertise and services:

- ASD ILS S-Series Suite, all issues, including: NAVAIR S1000D Technical Manual Business Rules and Information Sets for S1000D Issues 3.0, 4.1, and 6; NAVSEA S1000D Tagging and Authoring Guide; Army MIL-STD-3031; USAF MIL-STD-3048; ATA Spec 1000BR
- U.S. Legacy Military Specifications, including MIL-STD-40051; MIL-STD-3001; MIL-STD-38784 and subsets; ASD ILS S-Series Suite; MIL-PRF-87269
- ATA i-Spec 2200
- Requirements analysis
- S1000D Business Rules Exchange (BREX) development
- Technical publication-related toolset selection
- and evaluation
- Data conversion planning
  Document analysis and DTD (Document Type
- Definition)/schema development and maintenance
- Technical publication and implementation processes training

Why Our Customers Trust Us

Not only do we have extensive experience and decades of leadership, Pentecom stands at the forefront of developing concepts, creating schema frameworks, and authoring pivotal specification chapters. And, our team has written, and updated military specifications, setting the standards for U.S. defense technical publications.

Match our consulting services with our other short- or long-term solutions:

- <onRetainer/>, our contract option
- University of Pentecom, for training opportunites
- <jumpStart/>, for our mentoring services

Let us design a customized solution for you. Our expertise. Your terms. Contact our team today and let us put your strategy into action.
