Auditing & Quality Assurance

Evidence-first reviews that auditors accept on first pass.

Standards-compliant solutions delivering peace of mind and confidence in your data.

How Pentecom Can Help

Our exclusive combination of tools and expertise means your data quality is assured. And that means we deliver structured, interactive, and sustainable digital content accurately and consistently.

Our work complies with the most widely recognized technical documentation and data standards, including:

- Military-Specifications (MIL) -40051 and MIL-STD-38784 (military technical manuals)
- S1000D and Air Transport Association (ATA) iSpec 2200 (aerospace and defense data modules)
- ISO 9001 principles (quality management systems)

Pentecom invests in rigorous quality assurance processes, including peer reviews and editorial checks to create a multi-layered approach to exceed customer expectations.

Independent QA Auditing Services

We offer independent quality assurance audits tailored to government, aerospace, defense, and commercial clients. These services include:

- Conducting end-to-end audits of existing technical publications.
- Evaluating S1000D and MIL-STD compliance.
- Measuring data quality scoring and gap analysis.
- Processing audits for internal documentation workflows.
- Verifying that contractor deliverables meet contractual and technical requirements.
- Recommending efficiency, maintainability, and readiness initiatives.
- Developing root cause analysis and corrective action plans.

These audits provide organizations with clear visibility into their documentation quality and compliance, along with practical steps that can be implemented immediately to improve your digital assets.

Why Our Customers Trust Us

Our team offers both internal quality assurance and independent auditing services for organizations seeking objective evaluations of technical data quality, publication processes, or compliance status.

We are driving industry standards because we know mission readiness, safety, and efficiency depend on precise technical information.

Pentecom – where quality comes first, last, and every step in between. Contact us today and let Pentecom put your mind at ease with undisputed accuracy.

Undisputed Accuracy.
